How to Make an Envelope for your Grandio Gift

Instructions:

1. Cut along the outer edges (see the cut-out shape at the right).

2. Fold the patterned flaps in, followed by the bottom flap, then the top.

3. Write or place your gift message inside.

4. Tape the edges of the envelope in the center.

*Please note: Some printer settings may affect sizing.
If your envelope prints incorrectly, try using the borderless setting on your printer.
